Community Management

Community Newsletter

Jumeirah Village Triangle

April 2023

Dear residents,

I hope you have enjoyed a wonderful and joyous Eid break with your friends and family. The first quarter of 2023 has been promising and this is already a very exciting year of opportunities for all of us at Nakheel Community Management (NCM).

While 2023 is officially UAE's Year of Sustainability and COP28 is being hosted in UAE later this year, NCM is releasing its first Sustainability Report that compiles several green practices and initiatives we have incorporated into our business over the last year. As community managers, we will continue to focus on environmental sustainability by inspiring a community-wide commitment towards sustainable practices, in line with the national strategy.

I am proud that our communities are home to people from all over the world, from different backgrounds and cultures. In order to ensure that our properties and facilities are respected and used in the best way, this edition features a refresher on your community rules and guidelines. This will help establish what we need to practice as a community and as responsible neighbours.

With the hotter months almost here, it's also the best time to run a comprehensive home health check, especially on your air conditioning systems and plumbing fixtures, with a handy annual maintenance contract to keep you covered.

Your community usage charges are a key element in ensuring that your neighbourhood and its related assets run as per clockwork. This year, we have issued information packs to homeowners, which detail the budget components and compare them with the previous year's charges, while providing a visual sense of the operational and social achievements in your community. Don't miss our special article on this topic.

Lastly, we are setting the stage for our annual gardening competition that will be open at the end of summer for nominations. This is your chance to get your home gardens in full bloom and glory in time for winter. The best community garden will be awarded a waiver on community usage charges for 2023.

We are also proud to have won our first international award for Best Business Change and Transformation at the International Business Excellence Awards 2023, for our journey in building happiness and prosperity in our communities. Nakheel was also certified as a Great Place to Work™, giving us the right mix of talent and training to serve our customers.

Read all about our plans and check out our feature on the community management team looking after your community. We are now on WhatsApp too and we welcome your feedback and suggestions on this new channel too.

Wishing you a safe, happy, and healthy summer.

14 TLC Tips for your Home

15 NCM News and Updates

Your Community Updates

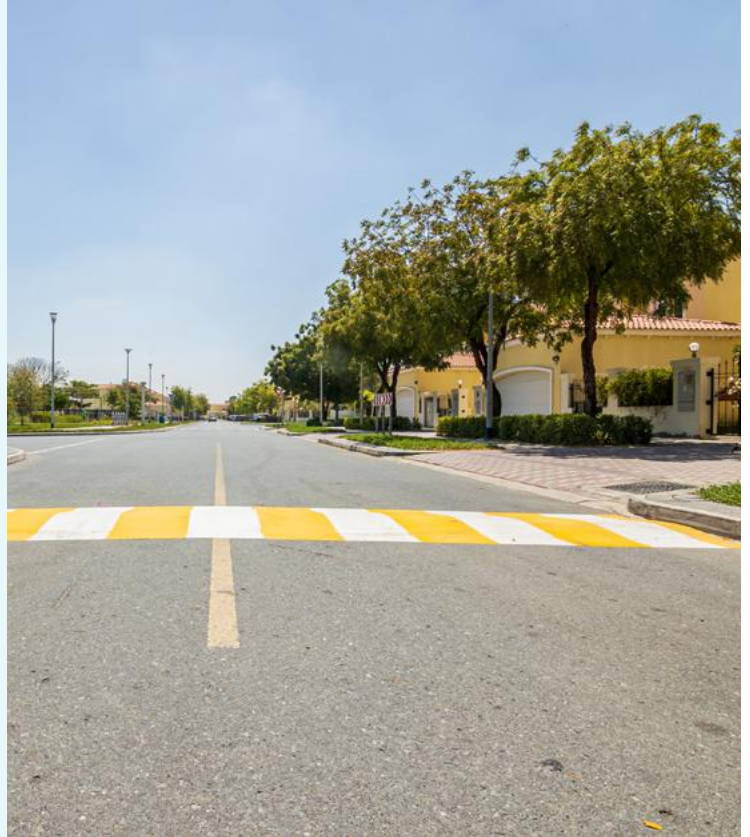

Your community is continually being maintained and enhanced to make it an even better place to live and visit. Here's a quick look at the last quarter's highlights.

Marked For Your Safety

As part of our efforts to ensure that road markings on your community streets are clear and visible throughout the day, a fresh coat of road paint was applied across 3,500 linear metres in Districts 3, 8, and 9. This improvement enhances lane discipline and vehicle flow in your residential community.

With the excellent connectivity that roads in Jumeirah Village Triangle offer, they are also heavily used by motorists. As a result, certain sections have suffered wear and tear over time and these areas are been given a protective asphalt patch across various locations..

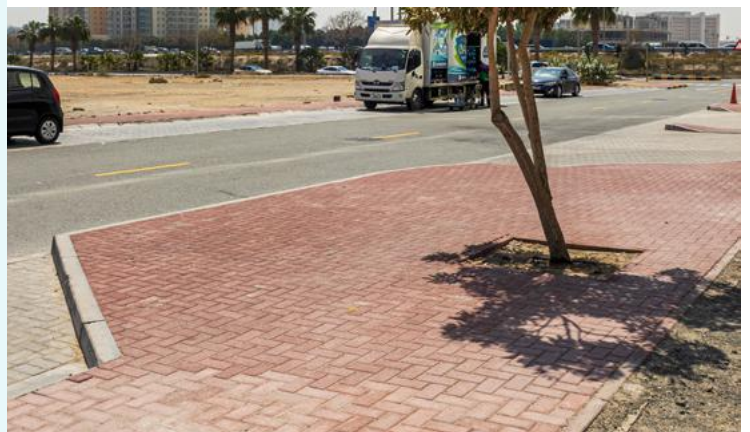

We encourage residents to follow internal community speed limits for a safe experience for fellow commuters and pedestrians using the roads.

New Pavers at Pathways

Pathways in Districts 1, 2, 3, 5, 6 and 8 have got an aesthetic upgrade with brand-new interlocks, covering an area of 8,500 square metres.

Having withstood heavy foot traffic, long hours of direct sunlight, fading, and discolouration, this addition brings with it durability and versatility while adding beauty to the community layout and appearance. Plus, it promises an even surface for frequent joggers.

Community Spring Cleaning

A clean community promotes the safety and well-being of its residents, visitors, and anybody driving into the neighbourhood. And that's why the deep cleaning exercise at the open spaces in Districts 2, 4 and 8 has been an important schedule for us.

An additional fleet of manpower was deployed for weed and waste removal, to refresh the community. This is an ongoing initiative that will cover different areas in each schedule.

Cooler, Colourful Play Time

One of our most sought-after hang-out zones amongst our sporty folks is now brighter and better.

The sports equipment at basketball courts in District 8 was repainted to revive the vibrant colours and provide a durable coating, making them particularly inviting for dribble time. Now, isn't this one cool spot to unwind after a long day of school or work?

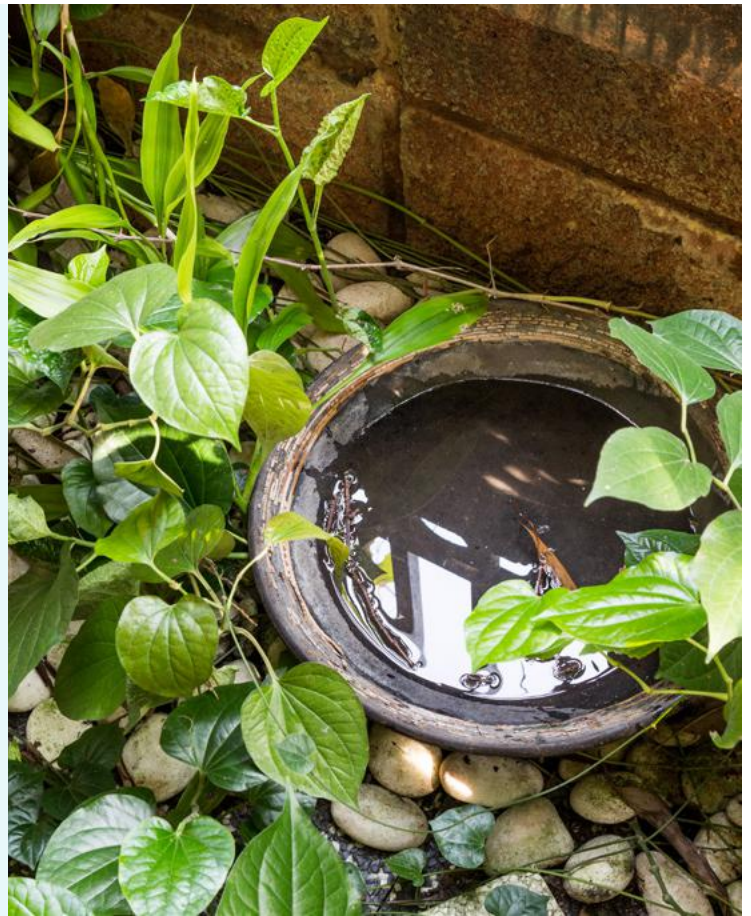

Eliminating Mosquito Breeding Sites

As the National Mosquito Control Programme entered its second phase with pest control treatments in public areas, we have been actively undertaking thermal fogging activities and scheduled safe treatments across vulnerable community common areas.

Although the mosquito menace is prevalent in cooler months, our teams repeat the activities round-the-year as a preventive measure to minimize the overall impact.

What you can do to keep mozzies at bay:

- ▶ Ensure there is no standing water in your flowerpots or garden.
- ▶ Install fly screens on open windows and doors.
- ▶ Use essential oils such as lavender and vanilla as a natural repellent for your home, and citronella while out in the garden.

Coming Soon

Exciting news for sports and fitness enthusiasts!

A Multi-Use Games Area (MUGA) will open in District 8 in May. The new court accommodates spaces for popular and loved ball games including basketball and volleyball. Meanwhile, a cricket pitch is taking shape at Canal Park in District 5, while paddle courts in the District 7 Park are getting its final touches.

Watch this space for more updates.

Have Your Say with Our Focus Groups

Jumeirah Village Triangle residents are invited to become part of our Focus Groups for open, productive discussions on key topics for the community. Residents' feedback and suggestions are invaluable in our ongoing commitment to ensuring customer happiness, so if you'd like to be part of the conversation, please sign up with this [link](#).

From left to right: Mutammim Sharif, Muhammad Umair, Ahmed Omar, Firas Sweiti and Jelena Berrada.

Meet Your Community Management Team

We're delighted to introduce your community management team.

Jelena Berrada oversees the Jumeirah portfolio and is supported by Mutammim Sharif, who manages the overall community operations. His team includes Firas Sweiti who looks into infrastructure, Ahmed Omar who is in charge of landscaping and Muhammad Umair who manages the facilities and soft services.

You can reach out to the team at **800 NAKHEEL**, help@nakheelcommunities.com, or at your community office in Circle Mall, Second Floor (next to Wellfit Gymnasium), Jumeirah Village Circle.

What Makes Your Community Sustainable?

We Use Solar Power

Our play areas are powered by solar-powered lights, drawing close to 80% savings on power consumption.

We Employ Technology in Operations

Your community landscaping is irrigated through smart irrigation systems.

We Educate

We collaborate with our service providers to raise awareness of recycling and green habits for living.

We Segregate

Each home has a dedicated garbage bin for household waste (black bin) and recyclable waste (green bin).

Your Community Events

LiveWell with **NAKHEEL**

The first LiveWell with Nakheel Wellness Festival kicked off on 28 January with co-curator Irina Sharma moderating talks, essential oils workshops by experts, children's activities, morning yoga classes, body image sessions for teens, and a lot more. The festival was a celebration of all aspects of the health and wellness industry - Balance. Nourish. Move. Relax. Evolve.

The March edition was a special session on hormones through aging, menopause, disease, or trauma. Here is a glimpse of our speakers, sessions, audience interactions, and highlights from these editions.

The momentum continues and we look forward to more exciting topics in the upcoming months. Stay tuned to our updates on www.livewell.nakheelcommunities.com.

Till then, live well.

Pets' Day Out

18 February was a day of unlimited fun, games, and sports at District 4's new dog park, for the canine residents of the community. Animal experts shared tips and a wealth of information on improving pet health and behaviour, while the petting zoo and photo booth were highlights for the younger participants.

Moonlit Movies Are Back

Our ever-popular Movie Under the Stars was back on 11 March, gathering residents for a relaxing evening to mingle, socialize and relax with a screening of the adventure comedy - **Jumanji: The Next Level**. Younger residents unleashed their creativity at the arts and crafts fiesta and spent an evening to remember, under the winter moonlight.

Ramadan Table

09 April was a special evening of sharing, games, Arabian tunes, and togetherness as families gathered for a community Iftar celebration. Residents brought their favourite dishes to share at the Ramadan table while embracing the spirit of the Holy Month with comforting meals, warm conversations, and festivities.

Tennis Tournament

A smashing tennis tournament was organized for sporting enthusiasts in the community on 19 February 2023 at tennis courts 3 and 4 in District 8. The event witnessed great participation from residents and turned out to be a thrilling day for the players, families, and spectators.

We look forward to organising more tournaments for tennis, paddle tennis, and basketball during the cooler weeks of November later in the year.

World Planting Day

We organised our maiden sustainability event to commemorate the UAE's Year of Sustainability with a first-of-a-kind tree-planting activity that involved the community residents. On World Planting Day (21 March), neighbours, friends, and landscaping service providers joined hands and planted trees in designated areas, adding more greenery to the community.

What made it extra special was that each planted tree bears the name of the family that participated in the initiative. Here are a few highlights from the event.

TLC for your Home

Time for a Home Health Check

Your home needs constant upkeep and maintenance to keep it in its prime and pristine condition just like your community. Add these items to your home maintenance checklist for a stress-free summer.

- ▶ Appoint a certified technician to check your smoke detectors and fire alarm installations.
- ▶ Schedule pest control to ward off any pests and bugs.
- ▶ Treat prolonged water leaks by fixing clogged drains or damaged water fittings.
- ▶ Service your HVAC unit for a smooth summer run.
- ▶ Sign up for an annual contract with a reputed general maintenance company to keep a tab on your mechanical, electrical, and plumbing systems.

Stay covered with the right insurance

It's never too late to invest in insurance that covers your prized home and possessions and gives you the peace of mind you deserve. Contents Insurance does just that in the event of the unexpected – be it a theft, fire, or water leakage.

With a good plan, you can protect your home and your belongings including your furniture, electrical appliances, soft furnishings, and even paint finishes on your walls and ceilings. Some contents insurance plans start as low as AED 200 a year, based on the coverage required.

What is covered under community insurance?

Community insurance only covers the common areas such as roads, amenities, signage, streetlights, walls, and irrigation systems. Contents insurance is the sole responsibility of a resident.

Five Steps Towards Good Air Quality

As temperatures rise, it's time to turn the air-con back on again. Here's a quick checklist for you to prepare your home's air-conditioning system ahead of use.

- ▶ Clean the air filters. Remember, poor indoor air quality can affect your health.
- ▶ If you have an outdoor unit, check for debris or dust accumulation.
- ▶ Test the system to ensure that there is no noise or odour generated.
- ▶ Ensure that electrical plugs and sockets are of standard quality, to avoid short-circuits or fire accidents.
- ▶ Open the windows and doors of your home, when weather and outdoor air quality permit.

Storing Household Chemicals

Chemicals are a common sight in most households, from cleaning agents, paints, and thinners to pesticides. But these can pose a health and fire hazard, if not handled with care.

- ▶ Understand the warning symbols - they indicate that the product could be hazardous.
- ▶ Follow the safety information and directions, when using the materials.
- ▶ Open a nearby window to ensure adequate ventilation, when using the chemicals.
- ▶ Choose low-emission paints, varnishes, and glues, wherever possible.
- ▶ Store chemical products in their original containers.
- ▶ Store flammable materials in fire-rated containers and away from combustible materials.
- ▶ Lock and keep these chemicals out of children's reach.
- ▶ Dispose of household hazardous waste products safely.

We are now on WhatsApp

We have just launched a new channel to engage and interact with our customers.

You can now reach us on WhatsApp at **800 NAKHEEL (6254335)** for raising maintenance requests, community usage charge updates, general queries, and feedback.

All it takes is a message to **800 NAKHEEL (6254335)** or **+971 800 NAKHEEL (for international customers)** to get help or information for your queries.

Stay tuned for more updates.

Gear up for our Home Garden Contest

Is your blossoming garden a source of pride and joy? Here is a chance to participate in our community garden contest and win big. Showcase your green thumb and get rewarded for your talent in gardening and landscaping.

THE PRIZE: The winning garden can enjoy a waiver on the Community Usage Charges for 2023.

Registrations will open by October 2023 and gardens will be evaluated in the following weeks. Qualification criteria include aesthetic appeal, design, elegance, innovation, diversity, and water conservation efforts. Winners will be declared in January 2024.

Our Sustainability Report for 2022 is Releasing Soon!

Stay Tuned!

Fuelled by Community Usage Charges

Community usage charges exist so that your community can be effectively maintained and enhanced to its highest standards. Quite simply put, it ensures that all the activities behind the scenes take place like clockwork.

With the recent issuance of community usage charges to homeowners, on-time payment of these charges is important. These rates are vetted by independent auditors and approved by the Real Estate Regulatory Authority. A delay in settling your usage charges on time has an effect on the operations of your community, as funds are required to pay service providers, utility bills, and community enhancements.

Pay your usage charges today using the **MyNakheel app**, or via bank transfer.

Community Rules Refresher

Your community is governed by Community Rules, which aim at creating an environment in which all residents can maximize the enjoyment of their community and amenities.

These rules intend to create a serene, attractive, and safe environment for the families, children, neighbours, and visitors of the community and master community. Browse through all the applicable rules and regulations of your community on www.nakheelcommunities.com.

Responsible Landscaping Starts at Home

With the beauty that a garden offers comes the responsibility of keeping it properly maintained and landscaped. Here are our top three tips for a clean and green surrounding for your home.

- ▶ Your garden is your responsibility. Plant large trees away from villa walls, as far-reaching roots can damage boundary walls and villa foundations.
- ▶ No neighbour likes a stray creeper encroaching into their space. Trim your plants and trees regularly to avoid them from invading common areas and neighbouring properties.
- ▶ Do not hang weights over the boundary walls or common areas to secure your landscaping, as these pose a safety hazard.

Residents' Recipe Corner

There's nothing like a tropical summer salad to beat the summer heat of 2023. Our resident, Deborah Schipper whipped up a delicious summer bowl and sent us the recipe.

It's called the **Palm Hearts Tabbouleh**.

Ingredients

- ▶ 1/2 cup bulgur
- ▶ 1 cup diced cucumber
- ▶ 1 cup diced tomato
- ▶ 410g can of palm hearts (drained and sliced)
- ▶ 1 teaspoon sea salt
- ▶ 1 large bunch of flat-leaf parsley
- ▶ 1/3 cup chopped fresh mint
- ▶ 1/3 cup thinly sliced green onion
- ▶ 1/3 cup extra-virgin olive oil
- ▶ 3 tablespoons lemon juice
- ▶ 1 medium clove garlic, minced

Preparation

- ▶ Prepare bulgur according to package instructions.
- ▶ Combine the diced cucumber and tomato in a medium bowl with salt and let the mixture rest for at least 10 minutes.
- ▶ To prepare the parsley, cut off the thick stems and finely chop and add to a large bowl. Add the cooled bulgur, chopped fresh mint, and green onion to the bowl of parsley. Strain off and discard the cucumber and tomato juice that has accumulated in the bottom of the bowl (this ensures that your tabbouleh isn't too watery).
- ▶ Add the strained cucumber and tomato to the bowl. Add sliced palm hearts.
- ▶ In a small measuring cup or bowl, whisk together the olive oil, lemon juice, garlic, and salt. Pour it into the salad and stir to combine. Taste, and adjust if necessary—add another tablespoon of lemon juice for zing, or salt for more overall flavour.

This serves six people.

Author's special note: Add the delicate flavour of hearts of palm to tabbouleh. These vegetables look like white asparagus and taste similar to artichokes. Palms hearts are harvested from the core of some species of palm trees and are perfect for summer salads.

Road Safety Advisory

With safety and wellbeing remaining our priority, we've teamed up with the Roads and Transport Authority (RTA) for a series of initiatives to remind, educate and enlighten residents on all things road safety.

The campaigns include motorist, pedestrian, and e-scooter safety, with handy tips on keeping our roads and people safe. RTA will also join us at some of our community events this year to provide guidance and advice to all road-users.

Free Household Junk Collection

A round of spring cleaning brings out the old and forgotten items that your home has harboured for long. Bidding goodbye to these items is a step easier. We have partnered with junk collection agencies to help you get rid of unwanted household items, free of cost.

What can you junk for free?

Old couches, clothes, office/home/garden furniture, toys, kitchenware, exercise equipment, linen, toiletries, electronics, mobile phones, home appliances, books, bicycles, cardboard, and faded carpets.

Gather your items and book a collection slot today by contacting **Take My Junk** at **800 5865/050 179 4045** or **Remove My Junk** - **055 549 1122**.

Give your pre-owned items a new lease of life.

Another Feather in our Hat

NCM was honoured at the International Business Excellence Awards (IBXA) for our commitment to operational excellence and adherence to high standards.

We emerged in the top position winning gold in the 'Best Business Change and Transformation' category.

This is a testament to our evolving goals, implementation of transformative strategies, and success in producing proven qualitative and quantitative results.
